

Minutes of Meeting (Lab 4: DSCI-560)

Team Name : Guardians of the Algorithm

Wednesday

Duration: 15 mins

- Understood the assignment, lab objectives, and overall goals.
- Conducted research on the required methods and strategies.

Thursday

Duration: 35 mins

- Discussed potential approaches to move forward with the implementation.
- Shortlisted key methods and strategies to focus on next.

Friday

Duration: 40 mins

- Completed the implementation of all required code.
- Ran initial tests and validated the algorithm's performance.
- Started working on the report simultaneously while coding.

Saturday

Duration: 45 mins

- Finalized the report and ensured all required documentation is completed.
- Reviewed and tested the entire implementation for accuracy.
- Prepared files for submission, ensuring all necessary components are included.
